**National Geospatial-Intelligence Agency:  
A Roles and Missions Briefing**

*Presented by*  
**Mr. Ralph M. Erwin**  
*NGA Liaison to the U.S. Army Training and Doctrine Command  
and the Combined Arms Center*

**September 24, 2018  
12:30 p.m. – 1:30 p.m.  
Arnold Conference Room • Lewis and Clark Center  
100 Stimson Avenue • Fort Leavenworth, Kansas 66027**

In this second presentation for academic year 2019 of the InterAgency Brown-Bag Lecture Series co-hosted by the U.S. Army Command and General Staff School and the Simons Center for Interagency Cooperation, Mr. Ralph M. Erwin, Senior Geospatial Intelligence Officer, will lead a discussion on the roles and missions of the National Geospatial-Intelligence Agency (NGA). The NGA is both a combat support agency under the Department of Defense and an intelligence agency as part of the United States' intelligence community.

Ralph M. Erwin is the Senior Geospatial Intelligence Officer assigned by the Army National Geospatial-Intelligence Agency (NGA) Support Team to be the NGA Liaison to the US Army Training and Doctrine Command (TRADOC) and the Combined Arms Center (CAC) at Fort Leavenworth, Kansas. His responsibilities include the integration of geospatial intelligence education into U.S. Army TRADOC educational institutions, CAC elements, and the Command and General Staff College. He is a Director of National Intelligence designated Intelligence Community Officer and served as a Senior Mentor to the Afghan Geodesy and Cartography Head Office in 2011. Mr. Erwin's other service to our country and in the private sector include duty as the deputy director of the U.S. Army TRADOC Program Integration Office for Terrain Data at the U.S. Army Engineer School, service as a U.S. Army Field Artillery officer, time at the Defense Advanced Research Projects Agency as the main battle tank simulation operations manager, and as a topographic systems combat developer for Lockheed Martin Corporation. Mr. Erwin is a graduate of Wentworth Military Academy and he holds a B.S. in mathematics from Cameron University and a Masters of Strategic Studies from the U.S. Army War College.

**All lectures in this series are free and open to the public.  
Attendees are welcome to bring their own lunches  
into the conference room for the presentation.**
